Objective

As a dedicated second-year Computer Science engineering student at St. Joseph's College of Engineering, Chennai under Anna University, I am eager to apply my academic knowledge and passion for technology in a dynamic environment. I am seeking opportunities to expand my skills and contribute effectively to the growth of an organization while advancing my career in software development.

Education

Degree	Institution	Year
B.E. in Computer Science	St. Joseph's College of Engineering	Ongoing Expected 2026
Higher Secondary	CBSE Board	Completed 2022
Secondary	CBSE Board	Completed 2020

Projects

1. Smart Dustbin

Developed a smart dustbin for a Makeathon organized by the EEE Department of St. Joseph's College of Engineering. The project aimed to create a dustbin that opens and closes automatically using sensors, enhancing hygiene and convenience.

2. Emotion Detection Website

Designed and implemented a website that uses AI and IoT technologies to detect and analyze user emotions. The project involved integrating machine learning models with real-time data

processing for accurate emotion recognition.
